DECEMBER 9TH AT 3PM CET

INTERNATIONAL RESEARCH COLLOQUIUM ON ECOVILLAGES & SUSTAINABLE LIFESTYLES

Join us for a constructive dialogue among researchers that study Ecovillages and sustainable lifestyles. The third colloquium will introduce “**EuroREGEN - A Participatory Action Research agenda for knowledge production and coalition-building**”.

Register for FREE here: <https://tinyurl.com/uwtvbvdj>

In this colloquium, organised by GEN Research, we will reflect on regenerative approaches to development through the lens of the EuroREGEN project and their findings on how transnational networks of Community-Led Initiatives, such as: GEN, Transition Network and RIPESS, mobilize within and across national borders in order to promote favourable institutional environments for regenerative solutions to the climate crisis.

ANA MARGARIDA ESTEVES

- Research Fellow at the Center for International Studies of the University Institute of Lisbon, ISCTE-IUL
- Guest Assistant Professor of the Department of Political Economy (ISCTE-IUL)
- Ph.D. in Sociology (Brown University, USA)
- Principal Investigator of the research project EuroREGEN - Transnational networks for regenerative development in Europe: A comparative perspective on grassroots mobilisation and policy advocacy
